For more information on copyrights or for permission for other uses contact: Natural Heritage Program, Louisiana Department of Wildlife and Fisheries, 2000 Quail Drive, Baton Rouge, La. 70808 Phone: (225) 765-2823. For more information about the LAMP, visit the LAMP web page at:

<http://www.wlf.state.la.us/apps/netgear/index.asp?cn=lawlf&pid=722>

Steve Shively is the State LAMP coordinator, phone: 318-793-9427.

Jacoby Carter conceptualized and produced this CD, phone: 337-266-8620.

The text on calls by species and location and frog calls on this CD were taken from the LAMP training tape provided by Steve Shively. Sources of audio material for that tape are as follows: oak toad, ornate chorus frog, crawfish frog, dusky gopher frog, pickerel frog, and spadefoot toad are from The Mississippi Natural Heritage Program's "A Guide to Mississippi Frog Sounds" and are used with permission.

All other sounds were recorded by either Steve Shively or Dr. Robert A. Thomas. **This CD was made possible with the support of the U.S. Geological Survey, LA Dept. of Wildlife & Fisheries, and LAMP volunteers.**
